

# Rust Aarhus meetup #1

18:00: "Let's build a new community together - part I" - by Tue Henriksen

18:25: "Why learn Rust if I know a memory-safe language?" by Philip Kristoffersen.

18:45: Light dinner sponsored by [r2p] and [Geanix].

19:30: "Breaking the limits of Rust: Exploring Static Reflection for Powerful Code Generation" by Wojtek Polak.

20:20: "Let's build a new community together - part II" - by Tue Henriksen

20:30: Get help to get started with Rust, or get answers from other members on your Rust questions - bring your laptop!

~21:00: Thank you for a hopefully wonderful and rewarding evening. Feedback for the meetup will be appreciated.

Let's build a new community  
together

By Tue Henriksen

# Thank you!

Here I had the meetup profile pictures and names for all members. Removed in this archived version.

# Experience Levels

We are a big crowd with different backgrounds and experience levels.

Which of the following statements fits you?

1. I write Rust code more or less every week
2. I write Rust code now and then
3. I have never written Rust code, but it sounds intriguing
4. I am only here for the free food

# My Dreams

- An open and welcome community - Yes we have a Code of Conduct
- Talks not only from the gurus
- More Rust developers and companies
- Smaller groups for learning or hacking

What are YOUR dreams?

# Learning

- Study groups - can be online every week
  - Rust
  - Rust async
  - WASM
- Projects
  - Work on your home automation
  - Build a robot
- Hackathons

We can do whatever we want - you can organize it yourself, we can organize it together, or you can inspire others to organize it.

**THINK ABOUT WHAT YOU WANT**  
and let's talk about it after the presentations.

# Meetup #2, June 8th

Call for participants!

What we need:

- Speakers to give Rust-related talks
- Venue with room for more than 20 persons, including projector, food, and beverages

# Free play

- Install the Rust tool chain [www.rust-lang.org](https://www.rust-lang.org)
- Feel free to ask questions
- Come forward with your suggestions
- Talk with that strange person sitting next to you

# Thank you for attending!

Please remember to tell about Rust Aarhus

# #rustaarhus

Or follow me on LinkedIn to like, comment and share  
my Rust Aarhus posts

Feel free to contact me (Tue Henriksen)  
directly on the meetup platform.
